Follows the growth of the Japanese automobile industry, with information on the production of every Japanese manufacturer, technical specifications, racing car versions, the evolution of car design and all experimental prototypes

Presenting the proceedings of the Ergonomics Society's annual conference, the series embraces the wide range of topics covered by ergonomics. Individual papers provide insight into current practice, present new research findings and form an invaluable reference source. A wide range of topics are covered in these proceedings, including Ergonomics, Human Factors and User-Centred Design. It also features related disciplines such as Psychology, Engineering and Physiology. Particular emphasis is given to the utility of these disciplines in improving health, safety, efficiency and productivity. The 2006 Annual Conference features four special sessions on: Usability of Homes; Human Computer Interaction; Human Factors in the Oil, Gas and Chemical Industries; and Control Room Design: Current and Future Challenges. As well as being of interest to mainstream ergonomists and human factors specialists, Contemporary Ergonomics will appeal to all those who are concerned with the interaction of people with their working and leisure environment including designers, manufacturing and production engineers, health and safety specialists, occupational, applied and industrial psychologists and applied physiologists.

Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer.
