In her own singularly beautiful style, Newbery Medal winner Sharon Creech intricately weaves together two tales, one funny, one bittersweet, to create a heartwarming, compelling, and utterly moving story of love, loss, and the complexity of human emotion. Thirteen-year-old Salamanca Tree Hiddle, proud of her country roots and the "Indian-ness in her blood," travels from Ohio to Idaho with her eccentric grandparents. Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.

In the aftermath of nuclear war, the Navy destroyer "Nathan James" and its crew--including twenty-six women--searches the seas for a place where survival would be possible.

"The title 'The Unfinished Nation' is meant to suggest several things. It is a reminder of America's exceptional diversity of the degree to which, despite all the many efforts to build a single, uniform definition of the meaning of American nationhood, that meaning remains contested. It is a reference to the centrality of change in American history to the ways in which the nation has continually transformed itself and continues to do so in our own time. It is also a description of the writing of American history itself of the ways in which historians are engaged in a continuing, ever unfinished process of asking new

questions"--

There is No Such Thing as a Natural Disaster is the first comprehensive critical book on the catastrophic impact of Hurricane Katrina on New Orleans. The disaster will go down on record as one of the worst in American history, not least because of the government's inept and cavalier response. But it is also a huge story for other reasons; the impact of the hurricane was uneven, and race and class were deeply implicated in the unevenness. Hartman and Squires assemble two dozen critical scholars and activists who present a multifaceted portrait of the social implications of the disaster. The book covers the response to the disaster and the roles that race and class played, its impact on housing and redevelopment, the historical context of urban disasters in America and the future of economic development in the region. It offers strategic guidance for key actors - government agencies, financial institutions, neighbourhood organizations - in efforts to rebuild shattered communities.
