This book is about the development of the planets. Not only how they positioned themselves over time and how they affected each other but also how people once had outposts on some of them. This isn't a fairy tale but some of the evidence provided here is not typically provided to everyone simply because it doesn't go along with what many people WANT to believe. If you are one of them, don't read this book.

This important book, written by educational expert and urban school leader, Tom Payzant, offers a realistic understanding of what urban school leadership looks like from the inside. Payzant shares his first-hand knowledge of the unique managerial, instructional, and political tasks of this role. Effectively combining practical lessons and research, Urban School Leadership includes in-depth analysis of various leadership concerns. The book covers topics such as improving student achievement, working with unions, building community, and maintaining and developing resources. Most importantly, it offers stories of real school leaders whose successes and missteps reveal the inherent "messiness" of this difficult job. Urban School Leadership is part of the Jossey-Bass Leadership Library in Education series. "This important book provides compelling examples of how effective leaders can have hope, see progress, and achieve success for all children in the schools and districts they lead."—Richard Riley, former United States Secretary of Education "Tom Payzant is one of the few people who could provide such a comprehensive, useful book for educational leaders at all levels. This very practical book is grounded in the important experiences and impressive judgment of one of our nation's most successful school superintendents"—Jon Schnur, co-founder and CEO, New Leaders for New Schools "Tom Payzant is one of the finest urban educators of our generation. Urban School Leadership is compelling, crisp, and wise—providing a clear path for those dedicated to improving the trajectory of children's lives."—Timothy F.C. Knowles, executive director, Center for Urban School Improvement, University of Chicago "Urban School Leadership is a must read for anyone interested in the landscape of urban public education in America."—Beverly Hall, superintendent, Atlanta Public Schools

In this riveting biography of Elizabeth Seton critically acclaimed and bestselling author Joan Barbel tells the mesmerizing story of a woman whose life featured wealth and poverty, passion and sorrow, love and loss. Elizabeth was born into a prominent New York City family in 1774. Her father was the chief health officer for the Port of New York and she lived down the block from Alexander Hamilton. She danced at George Washington's sixty-fifth Birthday Ball wearing cream slippers, monogrammed. Catholicism was illegal in New York when she was born; Catholic priests seen in the city were arrested, sometimes hung. When Elizabeth and her wealthy husband Will sailed to Italy in a doomed attempt to cure his tuberculosis, she and her family were quarantined in a damp dungeon. And when Elizabeth later became a Catholic, she was so scorned that people talked of burning down her house. American Saint is the inspiring story of a brave woman who forged the way for the other women who followed and who made a name for herself in a world entirely ruled by men. Elizabeth resisted male clerical control of her religious order, as nuns are doing today, and the publication of her story could not be more timely. Maya Angelou has contributed the foreword.

Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.
