up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. - when to use various designs
- how to analyze the results
- how to recognize various design options

Also, unlike other older texts, the book is fully oriented toward the use of statistical software in analyzing experiments.
