Eleven accessible tales explore the ethical motives of three real-life heroes.

# Online Library Eye Hurricane Tales Good Evil Help

Robert Holmes is one of the leading proponents of nonviolence in the United States, and his influence extends to the rest of the world. However, he has never presented his views on nonviolence in full-length book form. *The Ethics of Nonviolence* brings together his best essays on the topic, both classic works and more obscure pieces, as well as several important essays that have never been published. Holmes started his career by following Dewey and James, and then turned toward metaethics. The Vietnam War finally led him toward moral problems related to war and violence. For the last forty years he has been a great proponent of nonviolence and pacifism in the style of Tolstoy and Gandhi. If ethics is meant to be more than a purely academic exercise, the theoretical ethics of philosophy must be shown to be relevant to applied morality; the

## Online Library Eye Hurricane Tales Good Evil Help

ongoing process of making moral judgments must add value to the world we live in. For Robert Holmes, no aspect of reality is more in need of ethical thinking and reform than the culture of war and violence that cannot be ignored. There are morally viable alternatives to this violence, Holmes argues, and he scrutinizes the sources and implications of such positions. Holmes shows that nonviolence and pacifism can lead us toward a more peaceful and humanely dignified world.

This volume makes clear how Nazism was not only an attack on the human species and the Jewish people in particular, but also an attack on nature. Further, it examines the victims of the Holocaust for whom nature was not only a source of supplementary pain, but also a source of hope and redemption. The book reveals parallels

## Online Library Eye Hurricane Tales Good Evil Help

between the attitudes of the bystanders during the Holocaust and us - bystanders today - watching the ecological disaster with the same passivity. The book's unique conclusion will challenge each reader. In addition to teaching us to be critical about our concepts of nature, as well as to remember the victims, the Holocaust also teaches us to become rescuers rather than bystanders in light of the contemporary destruction of nature. (Series: Geschichte des Holocaust - Vol. 8)

This collection of academic essays have been written in tribute to Professor Zev Garber, and are divided to reflect the areas in which Professor Garber has devoted his teaching and writing energies: the Holocaust, Jewish-Christian relations, philosophy and theology, history and biblical interpretation.

## Online Library Eye Hurricane Tales Good Evil Help

Argues for the continuing relevance of Albert Schweitzer's thought, especially of his overarching theme of Reverence for Life.

Rethinking Justice lifts up and restores an idea of justice found in classical writers as well as more recent thinkers. Justice deals with righting wrongs and restoring peace to individuals and communities. We have lost sight of this and must return to it in mind and practice.

Questions shape the Holocaust's legacy. 'What happened to ethics during the Holocaust? What should ethics be, and what can it do after the Holocaust?' loom large among them. Absent the overriding or moral sensibilities, if not the collapse or collaboration of ethical traditions, the Holocaust could not have happened. Its devastation

## Online Library Eye Hurricane Tales Good Evil Help

may have deepened conviction that there is a crucial difference between right and wrong; its destruction may have renewed awareness about the importance of ethical standards and conduct. But Birkenau, the main killing center at Auschwitz, also continues to cast a disturbing shadow over basic beliefs concerning right and wrong, human rights, and the hope that human beings will learn from the past. This book explores those realities and the issues they contain. It does so not to discourage but to encourage, not to deepen darkness and despair but to face those realities honestly and in a way that can make post-Holocaust ethics more credible and realistic. The book's thesis is that nothing human, natural or divine guarantees respect for the ethical values and commitments that are most needed in contemporary human existence, but nothing is more important than our commitment to defend them, for they remain as

# Online Library Eye Hurricane Tales Good Evil Help

fundamental as they are fragile, as precious as they are endangered.

There are several divisive issues that separate Christian from Christian in the current century. One issue is the church's management of clergy sexual abuses of children, teens and adults. A second is the issue of sexual gender orientation and church membership. Contemporary Christian denominations often intermingle the divisive issue of clergy and religious leader sexual abusiveness with the equally divisive issue of sexual gender orientation. In this book Professors Krall and Schirch disentangle and discuss these two issues. They discuss their personal and their professional opinions about ways in which religious and spiritual teaching communities can avoid the institutional perils of abusive clericalism and divisive denominational management practices.

## Online Library Eye Hurricane Tales Good Evil Help

Throughout the book, they apply Anabaptist-Mennonite principles of peace-making in situations of sexual violation. Case studies are provided. A feminist hermeneutic is applied. Each letter-essay is auto-ethnographic in style: the professional and the personal are deliberately blurred inside a framework of narrative and story. Each essay is deeply rooted in its author's academic interests and in her personal life history. This book can be a text in graduate and undergraduate classrooms. It can also be used in denominational self-study programs.

This anthology provides a history of the systemization and canonization of existentialism, a quintessentially antisystemic mode of thought. Situating existentialism within the history of ideas, it features new readings on the most influential works in the

## Online Library Eye Hurricane Tales Good Evil Help

existential canon, exploring their formative contexts and the cultural dialogues of which they were a part. Emphasizing the multidisciplinary and global nature of existential arguments, the chosen texts relate to philosophy, religion, literature, theater, and culture and reflect European, Russian, Latin American, African, and American strains of thought. Readings are grouped into three thematic categories: national contexts, existentialism and religion, and transcultural migrations that explore the reception of existentialism. The volume explains how literary giants such as Dostoevsky and Tolstoy were incorporated into the existentialist fold and how inclusion into the canon recast the work of Kierkegaard and Nietzsche, and it describes the roles played by Jaspers and Heidegger in Germany and the Paris School of existentialism in France. Essays address not only frequently

## Online Library Eye Hurricane Tales Good Evil Help

assigned works but also underappreciated discoveries, underscoring their vital relevance to contemporary critical debate. Designed to speak to a new generation's concerns, the collection deploys a diverse range of voices to interrogate the fundamental questions of the human condition.

Sources of Holocaust Insight maps the odyssey of an American Christian philosopher who has studied, written, and taught about the Holocaust for more than fifty years. What findings result from John Roth's journey; what moods pervade it? How have events and experiences, scholars and students, texts and testimonies—especially the questions they raise—affected Roth's Holocaust studies and guided his efforts to heed the biblical proverb: "Whatever else you get, get insight"? More sources than Roth can acknowledge have

## Online Library Eye Hurricane Tales Good Evil Help

informed his encounters with the Holocaust. But particular persons—among them Elie Wiesel, Raul Hilberg, Primo Levi, and Albert Camus—loom especially large. Revisiting Roth's sources of Holocaust insight, this book does so not only to pay tribute to them but also to show how the ethical, philosophical, and religious reverberations of the Holocaust confer and encourage responsibility for human well-being in the twenty-first century. Seeing differently, seeing better—sound learning and teaching about the Holocaust aim for what may be the most important Holocaust insight of all: Take nothing good for granted.
