Previously published as one volume under same title.

Covers 5.5hp through 20hp four-stroke engines.

Prior to the development of a simple test called the Apgar score, many newborn babies missed receiving the urgent care they needed at birth. Dr. Virginia Apgar came up with the Apgar score to help these newborns by rating them in a number of different health areas. The savior of countless young lives, Virginia Apgar is hailed as a legend, a trailblazer, and an inventor. Readers delve into the riveting story of a medical legend who inspired women doctors to succeed at a time when society did not value the contributions of women in the work force.

The Small Gas Engines Workbook includes a variety of questions, in various formats, to help reinforce the student's understanding of the material presented in the textbook chapters. Step-by-step jobs in the Workbook guide the students through important engine service procedures. The Workbook also includes sample Equipment & Engine Training Council (EETC) technician certification tests for the four-stroke and two-stroke areas of certification. These tests help the students prepare for EETC certification.

The essays in this book examine various forms of popular culture and the ways in which they represent, shape, and are constrained by notions about and issues within higher education. From an exploration of rap music to an analysis of how the academy presents and markets itself on the World Wide Web, the essays focus attention on higher education issues that are bound up in the workings and effects of popular culture.

This leading text for symbolic or formal logic courses presents all techniques and concepts with clear, comprehensive explanations, and includes a wealth of carefully constructed examples. Its flexible organization (with all chapters complete and self-contained) allows instructors the freedom to cover the topics they want in the order they choose.

Most British people have heard of Dig for Victory and recognise the iconic logo of a boot pushing a spade into the soil. Despite victory being in sight by 1945, the government knew that food supplies were perilous and shipping still desperately needed for the raw materials of war. These famous guides showed people fighting on 'the Home Front' exactly what to do each month to put wholesome food on the family's table from their gardens and allotments. In Dig for Victory: Monthly Growing Guides author John Harrison shares twelve growing guides from the time. Together with his commentary written as a gardener rather than a historian, he clearly explains what's changed and why in modern gardening practice, which is less than you might expect in 80 years. He also provides context for readers as to the background of each guide based in part on research but most importantly the experiences and accounts of those who were there.
