Differentiated instruction in Project-based Learning

Increase achievement and engagement for all students in 21st century classrooms! Project-based learning has emerged as one of today's most effective instructional practices. In PBL, students...

Project-Based Learning: Differentiating Instruction for ...

In differentiated instruction (DI) we talk about differentiation in terms of students' readiness, interests, and learning profiles. PBL can be designed and managed to include all three of these aspects. When you design a project, you should take into account where your students are in terms of knowledge and skills to make sure the project's topic and learning goals are right for them.

Differentiated Instruction | Edutopia
Project-based learning (PBL) is a student-centered pedagogy that involves a dynamic classroom approach in which it is believed that students acquire a deeper knowledge through active exploration of real-world challenges and problems. Students learn about a subject by working for an extended period of time to investigate and respond to a complex question, challenge, or problem.
