975XL Double Check Valve Assembly 1
/4" to 1 /2" APPLICATION Designed for
installation on potable water lines to
protect against both backsiphonage and
backpressure of contaminated water into
the potable water supply. The Model
975XL provides protection where a
potential health hazard exists.

STANDARDS COMPLIANCE

WILKINS - American Backflow

Specialties

Specifications. The Wilkins backflow
975XL Reduced Pressure Principle
Assemblies have complied with the
highest standards, beyond what is required
of it. It is made of different materials such
as main valve body, access covers,
fasteners, and elastomers. This device is
also rated 180°F, equipped with full port
ball valves.
