Design Method, The: A Philosophy and Process for ...

Philosophy - Rapid Learning. In many ways sitting at a level below 'complexity', the rapid learning idea is Design Thinking's response to how best to deal with a complex environment: we can't know 'the answer' and so the winner will be the person that learns how to iterate faster than the others.

---

Design Thinking - Philosophy, Method, ToolThe Triz Journal

A design philosophy is a theoretical basis or driving force behind the work of a designer. They can apply to aesthetics, methods or the impact of a design on society, individuals or the planet. In many cases, pursuit of a design philosophy drives a career forward as accomplished designers typically strongly embrace a set of ideals.

Overview. Systematic philosophy attempts to provide a framework in reason that can explain all questions and problems related to human life. Examples of systematic philosophers include Plato, Aristotle, Descartes, Spinoza, and Hegel. In many ways, any attempts to formulate a philosophical method that provides the ultimate constituents of reality, a metaphysics, can be considered systematic ...
